“ Aunt Betty, you rushed in where angels fear to tread when Dad passed. You and the other family heroes during that terrible time. We never forget it. You were the last of our heroes to go. RIP and out of pain now! We will miss you always but you've got so many there with you now! It must be a great family party!

“ I was very saddened by the passing of my dear sister-in-law. She was always ready to enjoy life and quick to make a joke. She came through for me many times, especially when she took care of my newborn when I was unable and again when my husband passed she drew me out to engage in social activities. I will miss her very much. With love Marie
