

Irene Elizabeth Colvin

February 18, 1938 - August 27, 2016

On 8/27/2016,

Irene E Colvin (Bailey)(McGarry) earned her angel wings after a long battle with illness..

She is survived by her sister Joyce Grant and brother Kenny McGarry in England.

She is loving mum to four adult children:

Jim Bailey(Deanna), Kim Sell,

Garry Bailey(Kim), Donna Wood(Steve).

She has 8 grandchildren and 7 great grandchildren. She will be deeply missed.

Forever in our hearts, always on our minds

“ Dear Donna and family,
Your mom will always have a special place in my heart. Our childhood on Byrd Drive was a time like no other and was filled with laughter and love. So many fun memories and friendships made. Hopefully you can enjoy this special time of your life now and create those cherished memories with your grandbabies. She will always be looking down on you all with love. XO

“ To the family of Irene Colvin we have lost a true English treasure. I have known your mom for 30 years and have such vivid memories of her zest for life her humor her fantastic spirit. I remember how she lived to dance and literally kick up her legs so high like a Rockette. She made us all laugh with her quirky impressions and always had us rolling at her comedy during Bunco. For the Dunkl family she was an icon and she was a true family friend through marriages births deaths and divorce. I remember birthday parties and wedding reception and bridal showers she attended. She was a special guest at my wedding in Elk where she and the infamous Irish friend Grace said they felt they were in an English garden and the two of them had a great time celebrating with me. I will often think of her now at peace and dancing a jig as she smiles down on us. She is with her great love now and will forever watch over your family the ones she loved passionately and proudly and me.

“ Grandma you were like a mother to me. So many Summers spent at your house and then you moved in and we spend so many days and nights talking about England and the wars and telling me about the old days. Your story about Goerge Washigton and the 1 dollar bill. You loved to show off your dance moves and never were without a story to tell my friends. You taught me right from wrong, math, how to read. You used to take me to the local bookworm store and we'd look for what felt like hours for new books. I'll never forget your obsession with the Mexican pizza at Taco Bell the summer of 96. We went 3 times in a week. Grandma you were the smartest, bravest person I knew. I will raise my kids to know how amazing you were and how truly blessed I was to call you Grandma. I love you Grammy and I know you are watching over us. No more pain, no more sorrow. You are free to do as you please again. Until we meet again Grandma, I LOVE YOU!

“ You were my mum, best friend and dancing partner.
You will be forever in my heart and always on my mind. Not sure what I am going to do without you..
