“ My dear friend, kathy was such a kindhearted girl. As far back as 8th grade when I met her @ Placer Hills Elementary in Meadow Vista. She sat across from me in homeroom & also in Mr Z;s science class. We shared many notes, part of me enjoying her friendship was her gorgeous handwriting. I have always thought this was a part of who one was. I saw her in high school though we didn't hang out. she was such an encourager to me!1 In our later years we lost contact, then in 2000 the PHS directory came out! As soon as I got Kathy's # , I gave her a call, & we continued where we left off. Though I tried to arrange a meeting with her, sadly this didn't occur. We continued to email, then I saw that she had passed away. I was determined to attend her memorial as I so wanted to meet her children, but on the way a terrible downpour came & I had to return to Reno. My life was enriched by knowing Kathleen!!
