“ *My dear sister... I have a lifetime of memories of you both in pictures and in my mind. I remember that on several occasions, you stepped into my life to help save me from myself. I am very grateful for that. You always accepted me for who I am and loved me unconditionally no matter what. I have always loved you and will always love you for that. Without knowing it, you taught me how to care for others and to follow in the steps of the Lord just by being who you were. For this, I am eternally thankful. I send you Blessings, my dear sister. Deep and sincere Blessings. I am still a work in process, but having had you in my life, I know in my heart of hearts that we will see each other again. Thank you*

*Your little brother,
Ronnie*
