“Roberto Fernandez migrated here in united state in 1993. He is a handy and helpful to everybody. His happiness is to be with his family all the time. He is working Alaska seasonal and when he come back, his giving everybody a fresh crab leg and salmon. Which is the the best salmon i ever taste so far. He is very generous to everyone as long as he can help. Every year his going in the philippines but for reason he choose not to go home this year and spend christmas and new with his mother and sibling here in united state.

Its very hard to accept for the family, relatives and friends of his sudden lost. Roberto is a good son, good husband, father of 5 children, an awesome grandfather of 6 grandchildren, and the oldest sibling of 10. Although the family is going through a difficult time of his sudden lost and the immediate family is suffering financially because he is the only one that support his children and grandchildren. Any help and your sympathy to the family is really appreciated and god bless all your heart. The children and grandchildren want to see Robert to him give him a hugs and give thier last honor. We are trying to send his body to the philippines.
