

Viktoria Roytburd

March 10, 1918 - February 3, 2017

Victoria N. Roytburd: (1915 – 2017)

Our beloved relative Victoria passed to Heaven on February 3rd, only one week before her 102nd birthday. All her life she devoted herself to others, first as a distinguished doctor who performed operations during World War Two, and then to her many relatives, whether in sickness or in health.

At an advanced age she made the courageous decision to come to the United States, in order to be near her relatives who had immigrated earlier. She continued her devotion by helping to raise her great niece's daughter, who had been born only five months earlier.

Victoria will never be forgotten, for her love and warm heart, and her selfless service to others.
